Raw materials

Upon request, we can confirm that most cattle is pasture-fed during the summer months and that feed for cattle consists of grass, silage, coarse fodder from hay and supplemented with concentrated nutrient feed.

The bones used for the manufacture of our products are sourced from healthy, grass-fed, pasture-raised, cage-free, cruelty-free animals.

The farmers have an agreement with the veterinary authorities that the use of GMO feed will not be permitted.

Furthermore, we can assure that we do not use any GMO additives or ingredients at our factory.

f. Tina Morgen Madsen
